Advanced Plan Benefits

We like to do things differently here at Three. Want to use your data, your way? Tired of worrying about your mobile bill – home or away? Go all-inclusive with our Advanced Plans where you'll enjoy:

- +** Using your phone abroad at no extra cost with Feel At Home. Available in 18 destinations worldwide (with more to come). Your plan includes a set of allowances of voice, text and data units which you can use in the UK and in our Feel At Home destinations (some limits apply – see page 19). Where and when you use these is up to you.
- +** Tethering your tablet and using it on the go (or at home) with Personal Hotspot – you can use all or any of your data allowance to create a personal hotspot within the UK, unless you choose a plan with All-you-can-eat data. In this case, you can use between 2GB and 30GB a month as a Personal Hotspot (how much depends on when your contract started - see page 25). On all new Advanced Plan contracts with All-you-can-eat data, you'll now enjoy a 30GB Personal Hotspot allowance.
- +** Control your spend by setting your own limits for voice and data to avoid getting that shocking big bill.
- +** Change your plan - temporarily or permanently - when you need to.
- +** Free calls to Three customer services.

Our Advanced Plans

Our Advanced Plans are available on both Pay Monthly Packages, which include a device and have a minimum term of 24 months, and on a SIM Only basis, where you can choose a minimum term of 1 or 12 months. To end your contract, you'll just need to give us 30 days' notice (there may be a Cancellation Fee payable if you're still within your Minimum Term – see page 23).

Whether you're on an Advanced Plan Pay Monthly Package or SIM Only Advanced Plan, you'll get a monthly allowance of voice, text and data units for use within the UK and our Feel At Home destinations. These convert automatically on use within the UK and in our 18 Feel At Home destinations – how and where you use them is up to you. How this works is set out below.

New Advanced Plan customers (whether on a Pay Monthly Package or SIM Only plan) can only join on direct debit and the above plans' prices include a discount for paying by this efficient means.

Direct Debit is brilliant for you as payment will be taken automatically and your account will not be suspended if you forget to pay. It is also the most efficient method for us. You should maintain your Direct Debit whilst you stay as a pay monthly customer.

You can change your bank details at any time, just let us know. You can choose any of the following given means of payment. Simply allow us to store details and you will remain eligible for the £5 monthly recurring discount. See page 29 for more info.

Outside your Allowance

If you've used up all of your monthly inclusive allowance, and continue to use your account, you'll be charged the following rates.

Out of allowance cost	
Calls to standard UK landlines (starting 01, 02 or 03; excludes calls to the Isle of Man or the Channel Islands), UK mobiles (any network) and your Three voicemail (once you've used your allowance)	35p / min

- If you've used up all of your data allowance, you can choose to buy an Add-on to get extra units that lasts until your monthly allowance is refreshed (see page 10) or, if you find yourself needing increased allowances on a longer-term basis, you can change your price plan (via your My3 account) to one with an increased monthly data allowance.
- If you've used up all of your voice units, you can continue to make calls and just be billed for these at the rate set out above – or you can change your price plan (via your My3 account) to one with an increased allowance if you find yourself needing an increased allowance on a longer-term basis.

Add-ons & Changing your Price Plan

With Three's Add-ons, it's easy to customise your plan to give you even more flexibility and value. The Add-ons available to you will depend on your plan and current allowance, and are set out in the tables on the following pages.

If you want to increase your allowance on a longer-term basis, you can now change your price plan via your My3 account. A change of price plan may incur a small one-off fee allowing you to use your new increased allowances immediately. You will then be charged your new monthly price from the following month. Changing your price plan will not affect your contract end date. If you wish to move back to your original price plan, there will be a charge of £10 applied to your account to do so.

Add Data

If you find yourself needing more data or an increased personal hotspot allowance for the remainder of your current bill cycle, you can add one of the following Short-Term Add-ons to suit your needs:

How much does it cost for Directory Services?

There are a host of directory enquiry services available, all of which have different phone numbers and different charges. These calls do not come out of an allowance of voice units and you'll be charged the rates below to call these.

The table here only shows a fraction of the directory services available (which is changing frequently) – go to Three.co.uk/nts for the latest details.

Calls made to numbers starting 118 will be split into two elements: an Access Charge (set by us, at 45p per minute, with a 1 minute minimum charge) and a Service Charge (set by the company you're calling – they'll tell you this).

Prices for Three directory services (including VAT)	
National 118333 – multi-search	45p per minute Access Charge (1 minute minimum charge) + £1.50 to connect + (after the first minute) per Service Charge of £1.50 per minute.

International roaming, including Feel At Home Using your phone abroad

As an Advanced Plan customer, international roaming is switched on automatically on your account, so you can use your phone abroad, including in Feel At Home destinations straight away.

The good news is that international roaming is not subject to additional charges if you're using your phone to contact a UK number (starting 01, 02, 03 or a standard UK mobile) from a Feel At Home destination (see page 18). However, in destinations not covered by Feel At Home, additional costs will be incurred. How much these are, depend on where you are, and where the person you're contacting is.

To help you manage your roaming costs when you're travelling, we'll text you information about call charges and roaming rates for each country you visit.

If you need to contact Three Customer Services while abroad, call +44 7782 333 333 (this call will be charged at your standard roaming rate). Calls made from abroad to your voicemail will also be charged at standard roaming rates. Go to [Three.co.uk/roaming](https://www.three.co.uk/roaming) for more information.

Did you know:

- We've also set up a worldwide data roaming limit of £39 per month to stop you spending too much. If you'd prefer, you can have this limit removed by contacting Three Customer Services.
- Calls made when you're in a non-EU country are normally charged per minute.
- Calls received when you're in a non-EU country normally have a one-minute minimum charge and are then charged by the second.
- When you're roaming in the EU, the minimum charge for a call is for 30 seconds, after which calls are charged by the second.
- Calls received in the EU are charged by the second with no minimum initial charges – unless you're in an EU-Feel At Home destination, in which case it's free to receive a call.

Is there any other information about Feel At Home that I should know?

- All of our Advanced Plans include a set of allowances, made up of a specified number of units. You can use a portion of these allowances in our Feel At Home destinations each month. For example, with All-you-can-eat data, you can use up to 12GB each month to get online; with All-you-can-eat texts you can send up to 5,000 texts back to the UK each month from a Feel At Home destination; and if you have 3,000 or more minutes included in your allowance, you can talk for up to 3,000 minutes on calls back to the UK each month. If you exceed your 12GB monthly data allowance, your data usage may be blocked in our Feel At Home destinations until your next billing period. If you exceed any of these allowances for any 2 months within a rolling 12-month period we have the right to suspend international roaming on your account, meaning you will no longer be able to use your device or allowance abroad. Of course, we will let you know in advance if this is likely to happen.
- Feel At Home is intended for our UK customers who are visiting one of the destinations for short periods, like holidays or business trips. It isn't designed for people who live abroad or stay for extended periods. If you roam exclusively in a Feel At Home destination for any 2 complete months in a rolling 12-month period, we may suspend international roaming on your account, meaning you will no longer be able to use your phone or device abroad. Of course, we will let you know in advance if this is likely to happen. If you spend a full month abroad but some of that time is spent in a destination that isn't included in Feel At Home, the restriction won't apply.
- You can't use your phone as a personal hotspot in a Feel At Home destination.
- You can stream and connect to VPNs, but you will find this is slower and the quality will not be as good as in the UK.
- We restrict the use of your data allowance for file-sharing (like peer to peer download services) or using certain sites to download or share large files.

Key things to note

What about destinations not covered by Feel At Home – how much will it cost to use my phone there?

It's important to remember that the allowances included in your Advanced Plan are for units convertible into calls and texts to standard UK numbers, not international numbers. Our international charges for calling or texting vary depending on (1) where you are and (2) where the person you are calling or texting are located. The relevant international costs to call or text outside of our Feel At Home destinations are listed below.

The cost of data use abroad (when not in a Feel At Home destination) is set out below (please note, the 'Bands' are different for data use).

To see the roaming rates you'll be charged when in a specific country, [use the table on page 17](#) to identify the band that the country you're going to falls within, and if you are contacting someone in a different country (on an international number), check which band that destination falls into. Then check the tables below.

Internet and data usage abroad.

When you roam onto other international networks where data roaming is available, the charges below will apply (except if you're in a Feel At Home destination – see page 18 for more information).

The speed and availability of internet access when abroad will depend on a number of factors, including which network you are roaming on and the services they have available – for example, 4G networks may not be available, in which case you may only be able to enjoy 3G speeds. Other factors which may affect the speeds that you'll experience include your distance from the nearest mast, your location in a building, local geography, and the type of device you're using. Certain services such as audio and / or video streaming may be slower as a result than in the UK. For the latest information on which countries you can roam in, and on which networks, visit Three.co.uk/roaming

Band	Countries	Cost per MB
Data Band 1 (EU & selected European countries)	Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Estonia, Germany, Greece, Hungary, Isle of Man, Latvia, Lithuania, Luxembourg, Malta, Monaco, Netherlands, Poland, Portugal (incl. The Azores, Madeira), Romania, Slovakia, Slovenia.	3.9p

Data Band 3	Rest of the World excluding Feel At Home destinations – see page 18. Maritime Networks (Ships, Ferries, Cruise Liners), Airlines.	£6

Data charges are for data sent and received and are calculated to the nearest kilobyte.
VAT does not apply to data used in countries outside the EU except Monaco and Isle of Man.

We've set out some of the questions that we often get asked, and their answers below.

About your Advanced plan allowance.

Your Advanced Plan includes a monthly allowance of voice units, text units and data units that convert automatically on use within the UK and in our Feel At Home destinations into voice calls (to standard UK landlines starting 01, 02, 03, and UK mobiles), text messages sent to a standard UK mobile number or data use. It's worth remembering that if you don't use up your allowance in a month, you lose the unused portion, as it doesn't roll over to the next month.

After your monthly allowance (of whatever type of units) is used up, prices for use outside of your allowance for additional calls or messages are shown on page 8. If your inclusive allowance of voice units runs out during a call, we will charge you for the remainder of the call at the charges published in this guide.

How can I use my voice Units?

- Inclusive voice units in any packages or Add-ons are for voice calls made either within the UK or while in a Feel At Home destination to any other standard UK mobile (beginning 07 but excluding certain non-standard numbers – see page 14 for details), UK landlines (beginning 01, 02 and 03) and voicemail (retrieved by calling 123 from your mobile in the UK).

How can I use my text Units?

- Inclusive text units are for SMS texts sent within the UK or a Feel At Home destination to a UK standard mobile (beginning 07 but excluding certain non-standard numbers – see page 14 for details).
- Text units within a monthly allowance cannot be converted into: text messages sent from the UK or a Feel At Home destination to a non-UK standard mobile number; messages sent while abroad in a non-Feel At Home destination; text messages received in non-Feel At Home destinations; photo and / or video messages; or alerts received as part of Three's Alerts services. These services are also excluded from any Add-on allowances for messages.

How can I use my data Units?

- The inclusive data units in your package or Add-on can be used to connect to the Internet on your phone whether in the UK or a Feel At Home destination, unless you've chosen an Add-on that specifically states it is for UK use only.

31 March 2016 onwards	30,720 (converts on use to 30GB)

*Except if you signed up to our All-you-can-eat data, 200 minutes SIM plan between these dates, in which case you can use up to 4,096 Data Units (converts on use to 4GB) each month as a Personal Hotspot.

What else can't I use my allowances for?

What do you mean by All-you-can-eat?

All-you-can-eat data.

If you have All-you-can-eat data units as part of your package or with an Add-on, there are no hidden 'fair use policies' within the UK. If you're in a Feel At Home destination, you can use up to 12,288 data units (which converts into 12GB of data) each month. All-you-can-eat data units should give you all the access to the Internet you would normally need, without worrying about hefty bills. It's worth noting that even if you used your phone for every minute of every day you'd only use, subject to TrafficSense™, around 1,000GB each month. That's why we've set a usage cap at 1,000GB, in order to identify commercial use of the service, for example, which is not permitted under the Terms for Three Services.

Key things to note

All-you-can-eat texts and minutes.

There's no hidden 'fair use policies' with our All-you-can-eat text units or voice units allowances either when in the UK – we just ask that you use this allowance in accordance with our Terms for Three Services – that is, for personal use only, and not for any illegal, commercial or improper purposes. In addition to these All-you-can-eat UK allowances, you also get 5,000 text units and 3,000 voice units to use respectively each month, when in a Feel At Home destination.

Do you break down the cost of the units that I get as part of my package anywhere?

Yes – you'll see a breakdown of the exact cost of the units included within your package's allowances on page 2 of your monthly bill in the 'Answering your questions' section titled 'About your allowance's unit costs' – we believe this helps you understand the value you're getting from your package. The number of units each package is comprised of is also set out on pages 5-6 of this Price Guide.

- 1 data unit = 1MB of data
- 1 voice unit = 1 minute of a call
- 1 text unit = 1 SMS text message

For example the unit costs for the SIM 1GB Data 600 Minutes – 12-month plan are as follows: 0.0183p per minute, 0.0022 per text, 0.0107 per megabyte. These aren't charges for going over your allowance, these units are included in your plan. They also don't include any one-off reductions, discounts, or any Add-on allowances.

We have set out the unit costs for Add-ons in the table below.

Key things to note

International messaging.

Messages sent from the UK to international destinations, messages sent and received whilst abroad, photo and video messages and alerts received as part of Three's Alerts services are excluded from any monthly and / or Add-on allowances for messages. Your international messaging function is subject to services arrangements with respective networks abroad.

Can I use my Advanced Plan SIM card in anything other than a mobile phone?

Generally no – you can only use your Advanced Plan SIM in a mobile phone, not other devices (e.g. a dongle, mobile Wi-Fi device, laptop, or tablet). The only exception to this is if you've received your SIM as part of a package that include a specific device, such as wearable technology including the Dial.

What will I have to pay if I want to cancel my contract?

If you ask to cancel your package before the end of your Minimum Term, you'll be asked to pay a Cancellation Fee (see 'What do you charge for other services' on page 23). If you are outside of your Minimum Term and want to cancel your contract, there is no Cancellation Fee to pay. For more information call Three Customer Services.

Is there anything else I should note?

Can I set up a Call Return?

Yes – you can return a call directly to someone who has left you a message by simply keying # at the end of their message. This is called Call Return (returning a call directly from the voicemail service).

When using Call Return, calls are charged at your standard price plan rates or from any inclusive allocation, as though you had made the call directly. Call returns will be shown separately on your bill.

Call return from voicemail may not be made to certain numbers such as international and premium rate numbers. Any call-barring restrictions you have will also apply. You can only return one call directly from the voicemail service. As soon as you finish the call you will be disconnected and will have to redial into voicemail if you wish to continue listening to your voicemail.

If you divert your incoming calls to another number, we'll charge you for each redirected call. The cost of the redirected call depends on the type of number.

Key things to note

Charging / billing.

- All calls (except calls to short code, premium rate numbers and EU roaming calls) are treated as a minimum of one minute. Calls of more than one minute are treated as lasting for their actual duration, with fractions of a second being rounded to the nearest second (this does not apply to some roaming calls, calls to Service Numbers and Special Calls).
- This applies whether voice units are being converted into voice minutes or whether calls are being billed separately.
- Calls to Service Numbers (starting 084, 087, 09 and 118) are charged differently from other numbers. The Access Charge element of these calls will be treated as a minimum of one minute. If your call lasts less than one minute, your Access Charge will be rounded up to a duration of one minute. For calls of more than one minute, the Access Charge element is treated as lasting for its actual duration, with fractions of a second being rounded to nearest second. The Service Charge element is set by the company you're calling, and may comprise (1) a price per minute Service Charge; (2) a price per call Service Charge; (3) a price per call Service Charge plus a price per minute Service Charge (which runs from the start of your call); and (4) a price per call Service Charge plus a price per minute Service Charge (which runs from 60 seconds after the call starts). If the Service Charge includes a price per minute Service Charge, this will be treated as lasting its actual duration (except if the first 60 seconds have been excluded), with fractions of a second being rounded to the nearest second. For example, if you make a call to a service number, where the Service Charge is 10p per minute, which is simply charged at a price per minute rate, and your call lasts 30 seconds, you'll be charged a total of 50p for this call, as the Access Charge element will be rounded up to a duration of one minute at 45p plus 5p for the 30 seconds of call time for the Service Charge element.
- Each individual charge on your bill is shown with VAT included (where relevant), and is rounded up or down to the nearest tenth of a penny to make it easier to read. This rounding process means that the total charges you see on our bill summary page may not always be identical to the 'Total due by' charge you see on the front page of your bill. Don't worry, this is normal and you're not being overcharged or undercharged. The actual amount you need to pay is the one shown on your bill's front page, next to 'Total due by'.

To request a VAT invoice: customers can request a VAT invoice by calling 333 free from a Three phone, or 0333 338 1001 from any other phone (standard call rate applies) and select the Billing option. Three will only issue a tax invoice where it is obliged to do so following a few simple verification checks.

First Month Pro-Rated.

Unless otherwise stated, your first month's allowance and charge for your price plan or Add-on will depend on when in the month you join Three or when you decide to select your Add-on. Whenever that is, you can start using your allowance for your price plan or Add-on straight away. We'll work out an appropriate allowance and charge to take you to the end of the first month. After that, you simply pay the standard monthly recurring charge or Add-on charge for a full month's allowance. The exception to this is if you purchase one of our Add Personal Hotspot Add-ons, the first month of which will not be pro-rated. You will simply receive the full monthly allowance and be charged the full amount for that Add-on in the first month of purchase.

Key things to note

Recurring Payment Discount.

New customers can only join pay monthly plans on Direct Debit and our plans' prices include a discount for paying by this efficient means. Direct Debit is brilliant for you as payment will be taken automatically and your account will not be suspended if you forget to pay. It is also the most efficient method for us. You should maintain your Direct Debit whilst you stay as a pay monthly customer. You can change your bank details at any time, just let us know.

We cannot prevent you from cancelling your Direct Debit, and if you do, you are still required to pay your bills by the due date. We will retain your discount if you give us any of the following given means of payment provided that you simply allow us to store your selected payment method so that we can charge you on your billing date each month. Don't worry, you can swap these details at any time and on multiple occasions. If you do not permit us to store payment details you will lose the recurring payment discount.

You can choose any of the following given means of payment. Simply allow us to store details and you will remain eligible for the £5 monthly recurring discount.
